

International Journal of Speleology

ISSN 0392-6672

July 2007, 36 (2)

Eogenetic karst, glacioeustatic cave pools and anchialine environments on Mallorca Island: a discussion of coastal speleogenesis, Ginés Angel and Ginés Joaquin, 57-67.

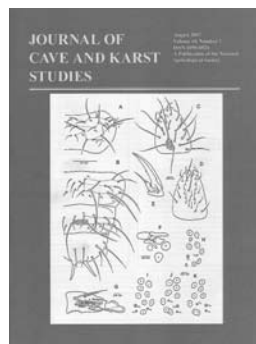

Speleothems as indicators of wet and dry periods. Fairchild Ian John and McMillan Emily Anne, 69-74.

Climatic differences and similarities between Indian and East Asian Monsoon regions of China over the last millennium: a perspective based mainly on stalagmite records, Tan Ming, 75-81.

The polygenetic caves of Cuatro Ciénegas (Coahuila, Mexico): Morphology and speleogenesis, Piccini Leonardo, Forti Paolo, Giulivo Italo and Mecchia Marco, 83-92

The impact of host rock geochemistry on bacterial community structure in oligotrophic cave environments, Barton Hazel A., Taylor Nicholas M., Kreate Michael P., Springer Austin C., Oehrle Stuart A. and Bertog Janet L., 93-104.

A Taxonomic Survey of Lamp Flora (Algae and Cyanobacteria) in Electrically Lit Passages within Mammoth Cave National Park, Kentucky, Smith Thomas and Olson Rick, 105-114.

Journal of Cave and Karst Studies

ISSN 1090-6924

August 2007, 69 (2)

An Assessment of the Applicability of the Heat Pulse Method Toward the Determination of Infiltration Rates in Karst Losing-Stream Reaches. Dogwiler, T., Wicks, C. M., and Jensen, E., 237-242.

The First Cave Occurrence of Jurbanite $[Al(OH SO_4) \cdot 5H_2O]$, Associated with Alunogen $[Al_2(SO_4)_3 \cdot 17H_2O]$ and Tschermigite $[NH_4Al(SO_4)_2 \cdot 12H_2O]$: Thermal-Sulfidic Serpents Cave, France. Audra, P. and Hobléa, 243-249.

Cenotes (Anchialine Caves) on Cozumel Island, Quintana Roo, México. Mejía-Ortiz, L. M., Yáñez, G., López-Mejía, M. and Zarza-González, 250-255.

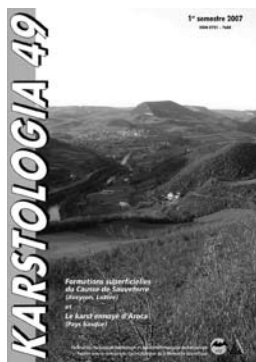

Monitoring the Disappearance of a Perennial Ice Deposit in Merrill Cave. Fuhrmann, K., 256-265.

Barka Depression, A Denuded Shaft in the Area of Snežnik Mountain, Southwest Slovenia. Zupan Hajna, N., 266-274.

A redescription of *Ceratophysella lucifuga* (Packard) (Collembola, Hypogastruridae) from North American Caves, Skarżyński, D., 275-278.

A Conceptual Model of the Flow and Distribution of Organic Carbon in Caves. Simon, K. S., Pipan, T., and Culver, D. C., 279-284.

Panstrongylus genticulatus (Heteroptera: Reduviidae: Triatominae): Natural Infection with *Trypanosoma cruzi* Under Cavernicolous Conditions in Paraguaná Peninsula, Venezuela. Molinari, J., Aldana, E., and Nassar, J. M., 285-287.

Karstologia

ISSN 0751-7628

2007, Vol 49

Morphology and superficial formations of the western part of the Causse de Sauveterre (Grands causses, Aveyron and Lozère, France). Laurent Bruxelles , Régine Simon-Coinçon, Jean-Louis Guendon et Paul Ambert, 1-14.

Study of karstification from borehole data. The case of the Tlemcen mountains. Fouzia Bensaoula, 15-24.

Petrography of a residual alterite « ghost-rock ». Cécile Havron , Jean-Marc Baele et Yves Quinif , 25-32.

Landscape evolution model, example of cockpit karst terrains, Jamaica.

Cyril Fleurant, Gregory Tucker et Heather Viles, 33-43.

Aroca (littoral, Basque country, France): a continental karst drowned by quaternary maritime transgressions. Nathalie Vanara , Alain Perre , Marc Pernet , Serge Latapie, Stéphane Jaillet et Olivier Martine, 43-55.

Helictite

ISSN 0017-9973

October 2007 40 (1)

The abode of malevolent spirits and creatures - Caves in Victorian Aboriginal social organization. Ian D. Clark, 3-10.

Tectonic and Talus Caves at Pilchers Mountain, New South Wales, Garry K. Smith, 11-20.

Microkarren in Australia – a request for information. Ken G. Grimes, 21-23.

Cavernicole diversity and ecology in Tasmania (MSc Thesis Abstract), Arthur K Clarke, 24.
